

CYBERSECURITY

Xiartz helps people build careers through practical learning, expert guidance, and future-ready skills.

ABOUT US

Xiartz aims to improve education around the world by creating personalized, interactive learning tools. They combine technology with a focus on students' needs to make learning easier and more engaging. By supporting teachers, students, and parents, Xiartz hopes to inspire a love of learning and prepare future generations to think, create, and lead.

OUR VISION, MISSION, GOALS

Vision

We aim to improve learning and help people achieve their potential, no matter where they live or their economic background.

Mission

Our mission is to use technology to make education accessible, spark curiosity, and help every learner reach their true potential.

Goals

We aim to give students industry skills through expert teaching and practical learning experiences that prepare them for real jobs.

Learn important skills through our certified course and grow confidently

Certificates

Industry Trend

The global Cybersecurity workforce is projected to surpass 15 million by 2030, driven by the exponential rise in digital threats and regulatory compliance needs. With increasing adoption of cloud, IoT, AI, and remote work, cyber risk management has become a board-level priority.

Cybersecurity jobs listed: 100,000+ globally on LinkedIn at any given time LinkedIn profiles:

- ✓ 8–10 million+ globally
- ✓ 800k–1 million+ in India alone

Job Market Activity

- ✓ *Over 1.2 million Cybersecurity jobs posted globally across LinkedIn, Indeed, and top hiring platforms*
- ✓ *India: ~120k–160k active Cybersecurity roles, with high demand in BFSI, IT services, telecom, healthcare, and government sectors*
- ✓ *Remote roles: ~20–25% of cybersecurity listings offer WFH/remote options, especially in SOC monitoring, cloud security, and compliance*
